

March 26, 2008

Hello,

As many of you probably already know, the Outagamie County Board voted last night, 27-4, to keep the Newton Blackmour Migration Trail (Seymour to New London), non-motorized. To read more about the county board meeting there is an excellent article on the Silent Sports Magazine blog at <http://blog.silentsportsonline.com/>

A huge thank you to all of you who helped in the advocacy efforts over the past months. The support at the county board meeting last night as well as the communication with county board supervisors was greatly appreciated. Your involvement made quite an impact. Fox Cities Greenways will continue to support and promote this trail and the future connections which will create a fantastic trail network in northeast Wisconsin.

Thank you.

Vickie Milde, Fox Cities Greenways President
