Volunteer Application

On September 30, 1882 Hearthstone became the first house in the world lit by hydroelectricity using Thomas Edison’s System. Today, it offers a chance for the community to step back in time and explore an architecture wonder.

Since 1986, there has been a volunteer system in place at the museum. Volunteers play a vital role in Hearthstone’s operations; we could not stay open without them. Upon completing this application, you’ll be contacted for an interview. Applicants will be kept on file for six months.
